

END-TO-END CARD PROCESSING

*All Trailblazers
Leave a Path*

summit

With over a decade of experience with card-based solutions, DataPath continues to forge a path through the benefits administration industry as an end-to-end card processor. From card issuance to transaction adjudication, payment processing to customer service and technical support, we take care of everything in house. Our streamlined, secure process provides improved security, accountability, and reporting, and reduces overall costs.

Reach the peak of better benefits administration with DataPath Summit.

HRA | HSA | VEBA | FSA | COBRA
RETIREE BILLING | TRANSIT AND MORE

DataPath's Summit debit card, in partnership with MasterCard®, is the ideal solution for all of your benefits payment needs. All accounts can be linked to the Summit Card, with a stacked benefit environment that allows portability between benefits:

- **FSA/DCAP**
- **HRA**
- **Transit**
- **HSA**

As a single-vendor, end-to-end card processor, DataPath offers you:

Increased Security – Sensitive account and personal information stays in-house and doesn't transfer through multiple hands for a single transaction.

Improved Flexibility – Each TPA and provider has a different set of needs and preferences. Where other processors are limited by differing rules and regulations, our single set of protocols allows us to tailor our processes to meet your needs.

Quicker Payments – Our streamlined processes from beginning to end mean greater operational efficiency and faster processing.

Better Support – By dealing with a single point of contact, you can oversee the entire process and status of a payment. If a problem arises, there's only one number you need to call.

DataPath 

Let's work together.
