

WHY WORK WITH DATAPATH?

A man in a black t-shirt and shorts is rappelling down a dark rock face. He is looking up towards a bright sun in a clear blue sky. The sun is positioned in the upper left quadrant, creating a lens flare effect. The rock face is on the right side of the frame, and the man is positioned in the center, hanging from a rope.

summit

A dark blue silhouette of a mountain peak is centered against a lighter blue background. The word 'summit' is written in a white, lowercase, sans-serif font across the bottom of the image.

For over thirty years, DataPath has been blazing a trail through the benefits administration industry with our innovative technology solutions. We work hard to improve the condition of healthcare across the nation and emphasize building close client relationships, knowing their success is crucial to our own. We also have a proven track record of building powerful software systems that administer employer benefit plans, save time and money, and provide both our clients and ourselves an opportunity for growth.

Reach the peak of better benefits administration with DataPath Summit.

DataPath is a growing, privately-held company that has been in business under the same ownership since 1984, and we're here to stay. We've been in this market longer than any of our competitors. In fact, DataPath's senior leadership team has over 100 years of combined, hands-on experience in the benefits administration software industry.

Our focus is on being the best to market, not the fastest to market. Through our close relationships with clients and our breadth of industry knowledge, we designed Summit from the ground up to address the complexities of an ever-changing healthcare industry.

DataPath Summit has been created with your business in mind, for today and for the future.

Let's work together to reach the Summit.

Let's work together.
