

## Billing Solutions

*All Trailblazers Leave a Path*

**Trailblazer (*noun*): one who marks or prepares a trail for others to follow.**

Since 2002, DataPath's Billing Solutions have been blazing a trail in the healthcare benefits administration industry. Our billing platform features best-in-class COBRA (with State Continuation) functionality, along with Direct and Customized Billing, and Retiree Billing, enabling DataPath to become a market leader.

As a TPA, you're trying to remain competitive, stay on top of regulatory changes, and attract and maintain revenue streams. With our versatile Billing Solutions and industry-leading customer support, you can overcome these challenges and scale the mountain to greater success for you and your clients.

DataPath's best-in-market billing platform was designed to address the complexities of healthcare benefits administration. We work hand-in-hand with our clients to develop innovative technology solutions, using knowledge cultivated from over 30 years of experience and interaction with third party administrators to help them efficiently administer COBRA benefits as well as Direct Billing and Retiree Billing programs.

DataPath's powerful Premium Billing solutions have many ease-of-use features, including unlimited plan designs, an intuitive interface, and 24/7 online account access. Complex billing administration has never been easier. Plus, DataPath's dedicated customer support team delivers superior service whenever you need it.

## COBRA and State Continuation

Our COBRA insurance solution is a recognized leader in the administrative industry. We listened to the real-world needs of TPAs and developed a system with seamless functionality, including:

- Schedule-based notice generation
- Comprehensive account reconciliation capability
- Automatically monitored COBRA-related events
- Time-frame tracking
- Legal compliance reports

Our solution also provides full-featured State Continuation administration.

## Direct and Customized Billing

DataPath's Direct Billing solution can be used to collect premiums for group health benefits or customized for other billing needs such as leave of absence, individual marketplace payments, parking fees, union dues, etc.

Our solution adapts to a variety of specifications, enabling you to handle any payment, benefit, billing, and election structure.

## Retiree Billing

Our versatile Retiree Billing solution features active-to-retiree auto enrollment and adapts to a wide variety of specifications, taking the challenge out of billing administration.

## DataPath Billing Solutions Features

**Integrated Cash Management** – Keep track of premium receipt and remittance, issue refunds and create checks for participants.

**Third-Party Payer Capability** – Accurately invoice an entity other than the named account holder. Receipts can be identified in the system by the actual payer, allowing any subsequent refunds to be made to the actual payer rather than the account holder.

**Quick Plan Setup** – Setup new plans quickly with our intuitive wizards and by importing census, benefit, and payment data from other software or from other DataPath solutions.

**Flexible Importing** – Save time on manual processing and data entry. Tell us the data elements and order, choose the file type, and the system imports the specified data.

**State-of-the-Art Fulfillment Services** – Generate documents and notices automatically, store documents digitally and on the web, and receive proof of mailing.

Follow the path
